1x microphone + stand for saxophone

3x monitors (depends on venue and acoustics) + mic'ing of all instruments.

2x free lines of **220v** power supply (+ extension cords) - from both corners of the stage

⊗ chair/stool  instruments  (drumfill) monitor ⊗ microphone+stand

P.A.

For regular clubs & bigger venues, the following requirements apply :

system : estimated 1000 watts for small venues, theaters – supplemented accordingly the venue – it's not the loudness but the dynamics of the pa system that counts.

speaker system : 3-way active + separate subs reproducing frequency range below 120 Hz.

FOH control : minimum of **10** inputs (no digital mixing boards preferred) - each input channel needs to have 4-way full parametric equalization

audio input (quarter inch or RCA) for music playback required

monitoring : monitoring for drummer required

For smaller venues/jazzclubs, we prefer playing acoustic and unplugged

CONCERT INFO

please announce as : **KODIAN TRIO**

set-up + soundcheck : **90 minutes**

access to venue : soundcheck needs to end minimum 1 hour before start of concert – doors remain closed for audience during soundcheck.

during set-up, soundcheck, concert : venue technician needs to be present.
